

History

The **Dubuque Camera Club** has been in existence since 1942, when it was chartered as the Dubuque YMCA Camera Club.

Our current membership consists of over 30 individuals with a variety of skill levels, interests, and photographic styles.

Although some people may have used film or slides in the past, today our club works only in digital format. Most club members use DSLR cameras, but you can use any type of camera and be a part of the club.

During past meetings, our club has enjoyed unique presentations by many talented area photographers. We've also hosted fun photo shoots and other activities.
