

About the Club

The **Dubuque Camera Club** has existed since 1942, when it was chartered as the *Dubuque YMCA Camera Club*. Today our membership includes dedicated and skilled photographers interested in a variety of subjects and photographic styles.

Our club submits N4C competition photos in digital format only. Post-processing is an avid interest for many. The typical club member uses a DSLR camera, and works in Adobe Photoshop and Lightroom. However, you can use any type of camera with any workflow and be a member of the club. Learning is part of the experience!

Our club's activities have included hands-on workshops and presentations by area photographers. We've organized fun photo shoots, given public talks, and participated in photography exhibits. Most importantly, we've taken and enjoyed a lot of terrific photos!
